

RIMZA RAUFF

IT Undergraduate | Full-Stack Developer & Web Developer | Aspiring UI/UX Designer
+94 75 44 395 65 | rimzarauff@gmail.com | linkedin.com/in/rimza-rauff | github.com/fathimarimza565-rmz

PROFILE

IT undergraduate with hands-on, full-stack development experience across HTML, CSS, JavaScript, PHP, React.js, and Node.js, complemented by strong UI/UX design skills (wireframing and prototyping with Figma and Canva) and a solid grounding in software engineering principles and the SDLC. Comfortable working across the full stack, from frontend interfaces to backend logic, with a detail-oriented, user-centered approach. Seeking an internship or entry-level role as a Full-Stack, Frontend, or Web Developer, or UI/UX Designer, to apply these skills and continue growing as a well-rounded software professional.

EDUCATION

Higher National Diploma (HND) in Information Technology — SLIATE, Nawalapitiya | 2324 Batch (2024–2026)

Graphic Design and Web Development — Kingspan College, Mawanella | Completed

Diploma in Human Resources Management (HRM) — Royal Academy of Professional Studies | Batch 11 (Reading)

Diploma in English — SLEGA English Academy | Completed

English Extension Course — University of Peradeniya | Completed

PROJECTS

Salon Booking System — React, Node.js, Express, MongoDB

- Built a multi-role app (customer, receptionist, admin) with appointment scheduling and booking history.
- Designed role-based interfaces and implemented access control across user roles.

Blood Donation System — HTML, CSS, JavaScript, PHP

- Built a platform connecting donors and recipients, with registration, donor search, and request features.
- Designed a user-friendly flow for donor search and request handling.

PHP CRUD Application — PHP, MySQL, HTML, CSS

- Built a secure web app with full CRUD operations, authentication, and form validation.
- Structured the backend logic and database schema for reliable data handling.

FundUs Website — HTML, CSS, JavaScript

- Built a responsive fundraising platform with campaign listings, donation forms, and user registration.
- Designed the UI layout with a focus on usability and a clean, intuitive user flow.

Event Management System — HTML, CSS, JavaScript

- Developed a responsive site for event browsing and participant registration with form validation.
- Designed intuitive navigation and ensured cross-device responsiveness.

Hostel Booking System — Java (Swing/JavaFX)

- Built a desktop app for registration, room booking, and availability tracking.
- Designed the user flow and implemented booking logic for accurate availability tracking.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, PHP, Java

Frontend: React.js, Bootstrap

Backend: Node.js, Express.js, PHP

Database: MySQL, MongoDB

Design: Figma, Canva, Adobe Photoshop, Adobe Illustrator, Wireframing, Prototyping

Other Tools: Git, GitHub, VS Code, REST APIs, WordPress, NetBeans

Concepts: OOP, SDLC, Responsive Design, Full-Stack Development, Software Engineering Principles, User-Centered Design

SKILLS

Attention to Detail | Analytical & Problem-Solving Thinking | Methodical Approach | Creativity & User Empathy | Communication and Teamwork | Fast Learner and Adaptable | Ability to Work Independently and Meet Deadlines

STRENGTH

- Full-Stack Versatility: Comfortable building both frontend interfaces and backend logic, with an understanding of the full development lifecycle.
- User-Centered Design: Strong focus on usability and clean, intuitive interfaces across web and desktop projects.
- Detail-Oriented & Methodical: Careful with edge cases, validation, and data accuracy across development work.
- Fast Learner & Adaptable: Quickly picks up new tools, frameworks, and workflows across dev and design contexts.
- Strong Problem-Solving: Comfortable debugging full-stack applications and identifying root causes of issues.
- Effective Communication & Teamwork: Experience collaborating on multi-role, full-stack team projects.
- Self-Driven & Reliable: Works independently, meets deadlines, and follows through on project ownership.

LANGUAGE

English — Professional | Sinhala — Professional | Tamil — Native
